

Each day mark the time that your dog does her/his pee or poop. After few days, you should see a pattern of what time your dog needs to do its business. After a week, you will have a good idea of when you need to step your dog our for potty or what I call the “nature call”.

Based on the results that you find out, take your dog out 10 minutes before the nature calls”.

	Pee	Poop	Pee	Poop	Pee	Poop	Pee	Poop	Pee	Poop
Monday
